

In keeping with its *Strategic Plan*, its mission to *Educate Every Child*, and its vision that “all students will graduate on time, prepared for college, careers, and life,” the Dare County Board of Education is committed to providing digital learning opportunities. The introduction of a student laptop initiative will greatly enhance the 21st Century learning environment of classrooms in Dare County Schools, providing teachers and students with access to a rich array of educational resources and opportunities.

The superintendent or designee shall promulgate regulations as necessary to govern the issuance and acceptable use of student laptops.

Adopted: December 16, 2014
